

WINTER DRIVING CHECKLIST

VEHICLE PREPARATION AND MAINTENANCE

- Invest in Winter Tires.
- Make sure your tires are properly inflated at all times.
- Make sure your TPMS (tire pressure monitoring system) is functioning properly.
- Keep a full, or nearly full tank of gas.
- Regularly check your battery voltage.
- Test your defrosters.
- Park your car in a garage, or purchase a car battery blanket/warmer.
- Check your windshield wipers and wiper fluid levels.
